## Prof. Atul Mandale

Campus placements at B schools or graduate are very defining moments in the life of any student. The students look up to and prepare themselves thoroughly to score high. It is the one time that students get a precise chance to make that practical application of their technical and employable soundness to the representatives of the corporate management of the particular industry they opted for. Gauging from past successful campus placements at SVIMS, the practical importance of this vital exercise in the management streams like finance, marketing can be seen and appreciated from the fruits it has garnered for the past students (alumni). Every year at SVIMS, as the placements time

comes around, all graduating students are well prepared and geared for the challenge that is before them. They are keen to illustrate the skills acquired both in the lectures halls and other interpersonal skills perfected along the way from curriculum to rise up and be counted among the worthy, brilliant employable graduates. At SVIMS "Return On Education" is the beginning unlike other B schools. Through the integrated intensive internship program SVIMS prepares its students for the rigours of working from day one, an unique offering by SVIMS. At SVIMS we call it 'Earn While You Learn.' Today we have 90 % of our PGDM needy students undergoing internships in some of the top corporates. Our current placements that concluded recently, have also attained new heights with 94% placements in MMS and 100% placements in PGDM.
